

## Cloud PRI

Make the most of your digital phone system and optimize your network efficiency

### PRI – an efficient business solution

Lingo delivers an all-digital, flexible, cost-effective solution that offers increased trunking efficiency and supports advanced calling features – all over your existing infrastructure. Whether you need a traditional telephony solution or want back-up to your mission critical networks, Lingo delivers all the features and functionality you need, for one low price.

### Why businesses love Cloud PRI:

#### Efficiency

Build on your existing PBX investment and leverage your current PRI-capable equipment for a cost-effective VoIP solution. By powering your PRI connections through your current internet connection, you'll optimize your bandwidth across the board.

#### Scalability

Cost-effective and flexible, this voice solution offers significant cost savings and easy scalability with a pay-per-path model. You don't have to worry about adding lines in fixed increments; you simply pay for what you need.

#### Reliability

Get high-quality, reliable voice connections every time. You no longer have to worry about service issues due to aging infrastructure — you've replaced copper with IP. IP-PRI modernizes your legacy system so that your business thrives in the digital era
