REDIAL

Dial the Activation Code *66, then press **Send** or **Dial**.

Polycom VVX 450 IP Phone User Guide

Call Forwarding Always

Automatically redirect all incoming calls to another number. When the service is active, a reminder will be displayed on your phone. You can also set your phone to play a Ring Reminder when a call is forwarded. The default setting for Call Forwarding Always is *off*.

To activate this feature:

1. Dial the Activation Code ***72**, then press **Dial** or .
2. At the prompt, dial the phone number where you want your calls to be directed and press #.
3. Once the system plays a confirmation message, hang up.

To turn this feature off:

1. Dial the Deactivation Code ***73**, then press **Dial** or .

Call Forwarding Busy

Automatically redirect incoming calls to another number when your line is busy. The default setting for Call Forwarding Busy is *off*.

To activate this feature:

1. Dial the Activation Code ***90**, then press **Dial** or .
2. At the prompt, dial the phone number where you want your calls to be directed and press #.
3. Once the system plays a confirmation message, hang up.

To turn this feature off:

1. Dial the Deactivation Code ***91**, then press **Dial** or .

Call Forwarding No Answer

Automatically redirect incoming calls to another number when you do not answer your phone after a certain number of rings. The default setting for Call Forwarding No Answer is *off*. The default number of rings is 3.

To activate this feature:

1. Dial the Activation Code ***92**, then press **Dial** or .
2. At the prompt, dial the phone number where you want your calls to be directed and press #.
3. Once the system plays a confirmation message, hang up.

To turn this feature off:

1. Dial the Deactivation Code ***93**, then press **Dial** or .

Call Forward Not Reachable

Automatically redirect incoming calls to another number if your number is unreachable. The default setting for Call Forwarding Not Reachable is *off*.

To activate this feature:

1. Dial the Activation Code ***94**, then press **Dial** or .
2. At the prompt, dial the phone number where you want your calls to be directed and press #.
3. Once the system plays a confirmation message, hang up.

To turn this feature off:

1. Dial the Deactivation Code ***95**, then press **Dial** or .

Call Pickup

Pick up (answer) any ringing line within your Call Pickup group. If more than one line in the Call Pickup group is ringing, the call that has been ringing the longest is picked up.

To pickup a call:

1. Dial the Activation Code ***98**, which will connect you to the ringing party.

Call Return

Call the last party that called you. Both answered and unanswered calls can be returned.

To return a call:

1. Without picking up the handset, dial the Activation Code ***69**, then press **Dial** or . The last calling party will be called as if you dialed the number directly.

Direct Voice Mail Transfer

Transfer a caller on hold to your voice mail or someone else's voicemail.

To activate this feature:

1. While on a call, press the **Transfer** soft key, then dial the Activation Code ***55**. An announcement will play explaining how to transfer the held caller to your voice mailbox (or anyone else's voice mailbox).
2. To transfer to your own VM, press #.

-or-

To transfer to another user's VM, dial the user's extension and hit #. The call is released from initiator's handset and the person transferred to will get VM.

Polycom VVX 450 IP Phone User Guide

Call Park / Directed Call Park

Place a call on hold with the intent of retrieving it from another extension. The call can be parked on your own extension or another within your group (groups are determined by your administrator). While parked, the parked party hears audio on hold (if it is configured). You can only park one call at a time against any single user extension.

When you park a call, a recall timer is started (45 seconds by default). If the timer expires before the parked call is retrieved and your phone is idle, the call will appear as a held call and your phone will ring. If the timer expires before the parked call is retrieved and your phone is not idle, the timer is restarted for 10 seconds and the call remains parked. This process will repeat until the parked call is retrieved or the parked call hangs up.

Note: You can only have one other active call when you try to park a call.

To park a call:

1. While on a call, press the **Transfer** key (or flash hook) and then dial the Call Park Activation Code ***68**.
2. After the prompt, enter # to transfer the call to your own VM.
-or-

Enter the number you would like to park the call against. The call will be parked.

If no number is entered and you hang up immediately after dialing the Activation Code, the call is parked against your line.

3. Once the call is parked against an available user, the service updates your display with the extension where the call is parked.

Call Park Retrieve

Retrieve a call that has been parked.

To retrieve a parked call:

1. Dial Activation Code ***88**, then press **Dial** or .
2. After the prompt, enter the number where the call to be retrieved is currently parked.
3. You will be reconnected to the parked party.

Note: If no numbers are dialed after the Activation Code, you will be reconnected with the party parked against your line.

Speed Dial 100

Assign a two-digit code to a frequently dialed phone number. Quickly and easily place a call by dialing the code, instead of the entire number. Two-digit codes that are Feature Access Codes cannot be used.

Note: You can associate to 2 to 30 numeric digits, including x11 emergency and repair call numbers. You can also associate to Feature Access Codes or even multiple chained Feature Access Codes.

To assign a two-digit code:

1. Without picking up the handset, dial the Activation Code ***75**, then press **Dial** or . You will hear the recall dial tone (three quick beeps and then a dial tone).
2. Dial the two-digit code to be created or modified, followed by the digits to be associated with the code. End the programming by pressing #.
3. A confirmation message will play, and the speed dial number is programmed.

To use a two-digit speed dial:

1. Dial # followed by the two-digit code.

Group Paging/Push to Talk

This service allows you to call another user or group and have the call answered automatically, either as a one-way call, or a two-way call. Also allows you to page a group.

1. Pick up the handset and dial Activation Code ***50**. You will hear the recall dial tone (three quick beeps and then a dial tone).
2. Dial the extension you wish to page and press #.
3. Speak into the handset. When done paging, hang up.

Voice Mail Waiting Indicator

Clears the audible (and visible for some devices) message waiting indicator on your phone.

To clear the Waiting Indicator:

1. Without picking up the handset, dial the Activation Code ***99**, then press **Dial** or .
