Secure Cloud Fax

Send and receive Internet faxes. Anywhere. Any device.

Designed for the way you do business.

With Secure Cloud Fax, your faxes are sent straight to your email, keeping them private, confidential and secure. Keep your existing fax numbers or set up new ones..

Why businesses love Secure Cloud Fax

Compliance
SOX, HIPAA, and GLB compliant

Any Device
Use your existing laptop PC, desktop tablet, fax machine or mobile device to send and receive faxes. No special equipment required

Simple to Manage and Use
All of your faxes are managed in one place, so it's easy to keep up with everything. You'll never have a lost fax again

No more Busy Signals
You can receive multiple faxes simultaneously

How does it work?

Point. Click. Send.

Send/receive faxes via the cloud through:

- Desktop, laptop, tablet & mobile app
- Email
- Multi-function printers
- Online web portal
